# RED BISON™

Turn Your In-Building Network **into a Business Asset**

By deploying the best-in-class, wired and WiFi-enabled private network throughout a property, our scalable platform can serve as the technology foundation for years to come.

The Red Bison platform seamlessly integrates & connects smart building, HVAC, IoT, & other facilities/management technologies to streamline & automate building management processes, while also meeting requirements for increased bandwidth, mobility, & security.

COMMERCIAL-GRADE CONNECTIVITY PLATFORM

> "With Red Bison as your single technology in-building solution provider, we commit to bringing **real increases in tenant satisfaction** and **increased cash flow** to your commercial properties."

Lynn Martin *CEO*

> "We back our commitments with referenceable REIs to demonstrate Red Bison's delivery of **more profits and increased value** to portfolio owners."

Bill Owens *Executive Chairman*
